# READING UNDER PRESSURE

Stock Sold at One Time Four Points Below Friday Night's Closing.

#### (By Associated Press.)

NEW YORK, November 4.-The bank statement to-day for the first time in many weeks, agreed with preliminary estimates based on the known move ment of money and on other factors that reason apparently as much as for any other it came as a shock to speculative sentiment and caused a break in prices of stocks. The banking situation, however, was almost ignored up to the time of the appearance of the weekly statement on the stock mar-

Yesterday's sharp rise in open market discounts at Berlin was followed to-day by an advance in the official rate of discount of the Imperial Bank of Gerday by an advance in the official rate of discount of the Imperial Bank of Germany from five per cent. to five and one-half per cent., and there was a sharp drop in sterling exchange at Berlin further marking the pressure on that money market. Sterling exchange and the money markets in New York were nominal as is usual on Saturday, but the tone was firm and there was growing expectation that gold would go out next week. To day's early stock market showed violent speculative advances in a number of comparatively obscure specialities. Reading was under pressure and sold at one time four points below last night, closing only a fraction above the lowest. The loan expansion by the banks of 116,453,000 was attributed for the most part to the speculation of the week in the shock market and bankers made little disguise of their satisfaction with the check administered to the stock market movement. Total sales of bonds, par value, \$2,105,000.

Total sales 591,400 shares.

(Special to The Times-Disputch.)

SPENCER, N. C., November 4.—Engineer John M. Connell, of this place, who on last night was fatally shot in the store of Rutty and Hedrick by H. E. Rutty, a member of the firm, of this place, died of his wounds at 5 o'clock this morning.

The wounded man made a desperate fight for life during the eight hours through which he lingered in great suffering from the bullet, which plerced his abdomen, lodging near the spine.

It is learned that after leaving his engine, which had been brought in from a run on the Albemarle branch of the Southern Railway, Mr. Connell went to the store of Rufty and Hedrick and priced a pair of shoes, which he wished to purchase on credit. The credit being denied by Mr. Rufty, who waited upon him, the engineer became angry, and the conversation between the two men became very animated, until the men clinched. The engineer being much stronger than the merchant, the latter was pushed some thirty feet across the room, when the latter, thinking himself in imminent danger, pulled his pistol and fired.

Connell at once left the store and ranger.

in imminent danger, pulled his pistol and fired.
Connell at once left the store and ran about forty yards and fell in an unconscious condition in the door of another store, where five physicians were summoned and rendered every possible effort to revive the mortally wounded man. He held profusely inwardly, until weakened beyond the reach of medical skill. Once the dying man opened his eyes and sald: "Tell mother and wife that I am ready to die and will go to heaven."

The remains of the dead man were carried to-night to Hendersonville, where his parents now reside, for interment. He leaves a young widow, to whom he

Both Rufty and Connell bore good characters and were highly esteemed by the whole of Spencer.
